## **Abstract**

This is our self-evaluation of this book...

## **1 Introduction**

There are no stupid questions. There are only stupid answers.

## **2 Previous work**

More examples about  $\text{\LaTeX}$  are written by Sobell [2] and Lamport [1].

## **3 Results**

In this section we describe the learning outcomes of this class.

## **4 Conclusions**

We worked very hard, but achieved very little.
